HAKKIMDA

I am a front-end developer. I have 6 month of experience in developing responsive, user-friendly websites and web applications using HTML, CSS, and JavaScript.

I am proficient in various front-end frameworks such as React have a strong understanding of web accessibility standards and SEO best practices. I also have experience with version control systems such as Git and am comfortable working with agile development methodologies.

In my free time, I enjoy exploring new technologies and staying up-to-date with the latest web development trends. I am a self-motivated individual who enjoys working collaboratively with other developers, designers, and stakeholders to deliver high-quality products that meet user needs.
